No. 40 Nuuanu Street, Honolulu, H. I.

## KEPT UP THE PREMIUMS

SANGER RODE FOR HIS MOTHER'S HAPPINESS.

Honolulu May See Him Some Day—Eberhardt Wants to Come—Cyclomere has Been Lensed.

The "bike" riders of this city, especially the new comers, think a great deal of Walter Sanger, the crack American wheelman, and are hoping that he will visit Honolulu shortly.

After several years of considerable worry, Sanger has fallen into a large fortune. When Walter first went on the track and won so many races, his father, who was then a very wealthy man of Milwaukee, became so elated that he established a bicycle factory for his son. The enterprise was a sink hole and the elder Sanger lost every dollar he had.

He was carrying an insurance policy of \$200,000. Young Sanger went out in the world and with his wheel earned enough money to pay the premium on this insurance. It was one of the old policies issued under the old form. Had it been one of the modern policies Sanger could have borrowed money on it to pay his premium. The elder Sanger died recently leaving his family well provided for.

Frank Eberhardt, of Salina, Kans., a crack rider, who broke a world's record this year, has written to the Cyclomere management a proposition to attend one of the meets. He will be given encouragement to come.

As previously announced in The Star, Mr. Desky will lease Cyclomere park to a company of prominent business men.

I have given Chamberlain's Cough Remedy a fair test and consider it one of the best medicines for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.—George E. Wolff, Clerk of Circuit Court, Fernandina, Fla. Sold by all druggists and dealers, Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

## SUGAR BAGS FOR SALE

## The Man Hardest to Suit

Is the man worth suiting. We take pleasure in fitting the particular man, the man who insists that his trousers must be just so; that his top coat must be just that length—the right color—and have a graceful hang. That's the chap we want—the one who sometimes find fault, because no fault can be found with our goods.

## AWARDED FIRST PRIZE

Merit Wins.

One of the most attractive displays at the Mechanics' Fair this year was the one made by HILBERT BROS., Pacific Coast Agents for the Saint Louis A. B. C. Bohemian Beer. This beer was awarded FIRST PRIZE, notwithstanding it having had to compete with some of the best known brands whose names are household words. Pale and Sparkling with an excellent Hop Aroma, and renowned for its purity it makes an Ideal Family Beer. The beer is brewed from the finest growths of Bohemian Hops and the Choicest Selections of Barley by the American Brewing Company, St. Louis, Mo., whose brewing plant is conceded to be the model brewing plant of the world. The Saint Louis A. B. C. Bohemian Beer is bottled exclusively at the Brewery from stock not less than eight months old. (The above clipping is from the San Francisco Chronicle of late date.)

We have the exclusive agency for this excellent article, and are offering it at the lowest market rates.

## Columbia New Departure Brake.

A device, for which there has been for many years a crying need, and the lack of which has caused many casualties, both to expert and inexperienced riders, is found as the regular equipment on all chain wheels, in our Columbia New Departure automatic brake. The brake consists of a spring expansion ring on the rear sprocket working within a frictional drum. The braking of the wheel is brought about by retarding the rear sprocket by back-pedaling, which opens out the spring and brings it into contact with the drum. The instant back-pedaling ceases the spring contracts and the wheel is released. No power is lost in releasing the brake and the action is immediate. When wishing to check the speed of the machine, the first impulse of the rider is to back-pedal, the effectiveness of which is greatly multiplied by the action of the brake. "The impulse is materialized." No skill is required to operate the brake, the action being so natural that after a few days' use the rider is unaware of its existence and at the same time enjoys its advantages, wondering at the efficiency of his back-pedaling. The resistance of the frictioned surfaces works in a vertical plane, thus avoiding side thrust and consequent wear on the bearings. The brake is especially valuable to women in descending steep grades, or in an emergency when a sudden dismount is required. No other brake ever devised appears to combine so many points of excellence. Its presence on a wheel adds next to nothing to the weight, and nothing whatever in the way of clumsiness or unsightliness.

Our 1898 Columbias, fitted with these Brakes, will be here next week.
